

A modern interior scene set against a solid black background. In the foreground, a multi-tiered wooden table with a light-colored wood finish and dark metal legs is visible. On the top tier, a dark glass bottle stands next to a small, dark, textured object. To the left of the table, a potted plant with thin, bare branches sits in a dark, cylindrical pot. Above the table, a complex, multi-tiered hanging light fixture is suspended by thin wires. The fixture consists of several horizontal bars and vertical supports, holding multiple small, glowing yellow light bulbs. The overall aesthetic is minimalist and contemporary.

Think & Shift

We are a holistic design studio.

We are a holistic design studio.
We design products and spaces.

What is holistic design?

Generalism.

Generalism.
All touch points.

Generalism.
All touch points.
Context.

We design retail.
